INT.MICK AND MIMI'S KITCHEN - MORNING

Englishman MICK stands behind the kitchen counter while his wife MIMI pours coffee for their guests TINA and IKE seated on the other side.

MICK

(to Ike and Tina)

Hey! How are you feeling this morning?

Disheveled and hung over, BERMAN, a fat bald houseguest staggers in.

MICK

Look who's come in?

MIMI

Good morning, Berman!

BERMAN

God, not so loud.

Mick hands Berman a glass.

MICK

Here. What about a bit of a hair of the dog that bit you?

MIMI

Oh! He's just kidding, Berman. Go ahead. Try it. It's a fruit smoothie.

FRED and WILMA, a middle-aged married couple enters.

FRED

Morning!

WILMA

That looks good. Can I have one of those?

FRED

Yeah, me too. What kind do you have?

MICK

What kind would you like? He's got strawberry and banana.

FRED

Got any berries?

MICK

Sure I've got berries. I've got some raspberries. I've got some blueberries. I've got some strawberries. Here you go. Watch this. Little bit of juice. Not finished yet. Pop in some ice. Pop on the blade. Give it a quick spin. And just watch. It takes about three, four, five seconds and look at that. A beautiful mixed berry smoothie in less time than it takes you to say. Look at that.

FRED

Thank you.

WILMA

What is that? A personal smoothie maker?

MICK

Hey! It is if you want it to be.

IKE

Any chance of getting a real breakfast?

MIMI

How about an omelet? I'll just take a couple of eggs. How many you want?

IKE

Two. I'll take two.

MIMI

Two is good. Okay. Now, what next, Ike?

IKE

Some ham.

MIMI

Great.

IKE

Tomato?

MIMI

Tomato. How about that?

IKE

Okay. So, onion.

MIMI

Onion.

IKE

Oh, and cheese.

MIMI

Everything then, right. You want everything.

IKE

Okay. Yes, everything.

MIMI

I understand. Okay, I'll just pop this on. Now, watch. I'm chopping the ham and veggies, grating the cheese, and whipping the eggs, all in three seconds. The machine that just made those smoothies for Berman and Fred will make an omelet for you, Ike. Look at that.

IKE

Oohh.

MICK

Now, while that's cooking, can I interest anybody in any coffee?

TINA

Where's your coffee grinder? I'll help.

MICK

Oh, sit down and relax. We don't need a coffee grinder because in less than 10 seconds, we're gonna have fresh ground coffee. Ready? Now, whether you like a regular grind or, let's say, extra fine for espresso, in just seconds. You're done. Now, look at that. In no time at all. Fresh ground coffee. Smell good, yeah? Now I'm just gonna get this coffee started.

MIMI

Here you go, Ike. A light, fluffy omelet, done just the way you like it.

(oven bell dings)

Ah! There's my oven.

IKE

Wow, that was fast.

Behind Mick and Mimi, HAZEL shuffles in with a frumpy housecoat and a cigarette dangling from her lips.

MIMI

And what would breakfast be like without your favorite type of fresh baked muffins?

HAZEL

Did somebody say 'muffins?'

Hazel stands between Mick and Mimi.

MICK

Yes, we did, Hazel. And since I like banana and walnut.

MIMI

And I like mine with fresh, ripe blueberries.

MICK

It takes no more time or trouble to make two or three different kinds of muffins that it goes to make one.

MIMI

So, now, everybody gets exactly what they want.

Hazel takes a seat with the others.

TINA

Hang on a second. You just blended a bunch of smoothies, you whipped up an omelet, you ground coffee and you mixed up two different types of muffin batter in that thing. What the heck is it?

MIMI

It's the Magic Bullet.

MICK

The personal, versatile countertop magician.

WILMA

Countertop magician?

MIMI

That's right. Because it works like magic. All you do is choose your blade.

MICK

It comes with two.

MIMI

Twist it on. Put the bullet in the power base and press. As long as you're holding it down, it stays on. When you want it to stop, let go.

MICK

Or press and twist and it stays on for hands-free operation. When you want to turn it off, simply twist it back.

TINA

Wow. That's a lot easier to use than all the appliance contraptions we got for wedding gifts.

MICK

That's right. And look at this. Unlike these complicated machines, yeah, that are so big and clumsy, they just end up living in the back of the cupboard. Watch this. The Magic Bullet takes up no more room on your countertop, look at that, than a regular size coffee mug.

MIMI

So, you're going to leave it on your counter and you're going to want it there because you're going to use it every single day.

BERMAN

Come on, Mimi. Every single day?

MIMI

Several times a day because it'll do any job in the kitchen in 10 seconds or less.

BERMAN

Yeah. 10 seconds or less.

MICK

But let me ask you. What is the worst job you have to do in the kitchen?

MIMI

And almost every meal starts with it.

HAZEL

Chopping garlic! Stinky, nasty garlic!

MICK

Well Hazel, it's not so nasty anymore. Watch. Toss your garlic into the Bullet. It takes a second to put together. All you do is give it, one...two...three seconds.

MIMI

And in less time that it takes to get out a cutting board and a knife, you've got freshly chopped garlic. No mess, no stink. But you know what, the worst job for me is chopping onions. I don't know about you, guys, but it makes my hands stink for days, my eyes tear. I just can't stand it. But not anymore. With this, there's no time to cry. Watch this. And in one, two, three seconds, you've got perfectly chopped onion. Look at that. And it goes straight from here into the pan. Look at that.

MICK

Oh, watch this. Cause this is what I do just before the big game. Throw about five or six cherry tomatoes in there. They're the ones that I like cause they've got all the favor. Little bit of garlic, little bit of jalapeño, throw in an onion, little bit of cilantro, don't forget the blade that takes a second to put on and watch this. And in one, two, three seconds is all it takes. And when you're ready, look at that.

MIMI

Delicious salsa, guys, ready to eat.

BERMAN

Let me see that.

MIMI

All right, Berman. Here you go.

MICK

It really is so easy to use, you're gonna use it every single day.

MIMI

For every meal. How about a quick tasty lunch from leftovers. I've got some grilled chicken here, from last night's barbeque, and I'm going to put in some apple, some raisins, a squeeze of Mayo...

MICK

Ah, ah, ah. Just to spice up a bit. My favorite. A little bit of curry powder.

MIMI

Curry powder for everything. Then I'm gonna twist this on and watch. It chops the chicken, dices the apple and mixes everything together all at once in four, five, six seconds.

MICK

In less time than it takes to toast the bread.

MIMI

You've got gourmet chicken salad. Freshly made and ready to serve.

MICK

And that is a six-second lunch.

WILMA

If only dinner were that easy!

HAZEL

Huh! Yeah, dinner's always a production!

MIMI

Okay, well try this: start with a couple of cloves of garlic, add about two tablespoons of butter, some fresh parmesan cheese and a splash of cream.

MICK

Now watch this: simply pop on the top, give it a quick spin - and in one simple step we've ground the parmesan cheese, chopped the garlic and mixed all the ingredients together. And now we're ready to cook!

MIMI

And here's some Bullet fast magic that no other machine will do. I am just going to twist on one of these vented lids, and I am going to put it right into the microwave to cook for about 30 seconds.

TINA

You're gonna cook with it?

MIMI

Absolutely! So now the machine I just prepared my meal in I am also going to cook in - without ever dirtying a single pot or pan!

MICK

Now, while Mimi's slaving over a hot microwave, I'm gonna knock us up a quick pesto sauce. Are you ready? Big chunk of parmesan cheese; in goes the garlic, in goes the basil - look how easy this is! - handful of pine nuts, just throw them in there. Finish off with a little bit of olive oil. Watch how easy this is!

(MORE)

MICK (CONTINUED)

Spin on the top, set the Bullet on the base. And now we're chopping the basil, crushing the pine nuts, mincing the garlic and mixing all the ingredients together. And as fast as you can say Bob's your Uncle, Fanny's your Aunt, you've got a beautiful, homemade pesto sauce. Now all you need to do is pour it over your favorite pasta! Look at that! And you've got a beautiful, homemade pesto pasta made from scratch in less than 10 seconds!

MIMI

And Pasta Alfredo! I'm just going to whip on the cross blade and pop this on the power base to give it another quick whip. And look at this you guys! This is amazing! Look at that!

MICK

Now there you've got...

MIMI

Look at that!

MICK

Piping hot Fettuccine Alfredo and a delicious fresh-made Pesto Pasta. Believe me, they are both as good as you have ever tasted!

MIMI

It still needs a little fresh-grated parmesan cheese.

MICK

Now watch how fast it grates even hard cheeses - with no trouble at all! Right in the Bullet Cup.

MIMI

Like that. It's done. Seconds, right? Now I'm gonna put on the shaker top - remember this? Just twist it on. Look at that: fresh grated parmesan cheese for your Fettuccine Alfredo. Isn't that great?

TINA

Wait a minute! You made two completely different pasta dishes in less than two minutes?

WILMA

It takes me longer than that to make a phone call to order a pizza!

MICK

Ah, and no great meal is complete without a bit of dessert, right?

WILMA, HAZEL, FRED

Right!

MICK

Watch this: I'm just gonna mix a little bit of cream with a couple of tablespoons-full of chocolate syrup. Watch this. Now I'm gonna screw on the flat blade. That's the whipping blade - remember that Berman, right. Watch this: give it a quick spin. And if you've got six seconds then you've got plenty of time to whip up a delicious dessert! Hear that? That's it. You're done. And now, look at that: you've got a delicious, fluffy chocolate mousse. It tastes delicious! And you just saw it made in front of your eyes in just six seconds!

MIMI

(patting Mick's belly)

But if you prefer something a little bit healthier, you know?

MICK

Hey!

MIMI

You can try putting in your favorite frozen fruit. I like mangoes and raspberries - those are my favorite. And just add a splash of orange juice - or for you party animals, your favorite liqueur...

MICK

(points at Berman)

Like you!

MIMI

Twist on the blade and lock it on the power base. Now it's easy to satisfy that sweet tooth - without the guilt! Because in just about eight seconds you've got fancy, fat-free fruit sorbet with no added sugar! Look at this you guys!

MICK

Finish it off with a little sprig of mint - and look at that for a dessert!

BERMAN

So nice!

MICK

Just think, in a matter of minutes we made breakfast, two different kinds of muffins, a six-second lunch, snacks, two completely different pasta dishes, and two completely different desserts - all in like, what, the last ten minutes or so?

MIMI

And all without dirtying a single pot or pan!

WILMA

It's really gonna save me a ton of time and trouble in the kitchen!

MIMI

It really will! But believe it or not, that is not why Mick and I bought the Magic Bullet. We bought it because it is the...

MICK

The ultimate party machine! Are you ready? Watch this! Mick and Mimi's famous fifteen-minute party! Now I'm just gonna throw some cheese in there, a little jalapeño. It takes one second to put together - and it takes two seconds to make. One, two! What about that? Now I'm ready to put this in the microwave and I'm gonna get this party rolling!

MIMI

And while he's doing that I'm gonna add a little bit of that cheese, some chicken, a jalapeño; I'm gonna pop on the top - and watch this: in one, two, three seconds I've chopped the chicken and grated the cheese - and now I'm gonna spread it between a couple of flour tortillas. Now I'm gonna pop it in the microwave for just about, I don't know, sixty seconds - here you go Mick, you're done!

MICK

Outstanding! Pour that over some chips - and er... Nachos anybody?

FRED

Oh yeah, Nachos - those are my favorites!

MICK

Look at that!

MIMI

Or how about a fresh, hot chicken quesadilla?

IKE

That's incredible!

MICK

Hey, you know what else a party needs? Dips! Now, watch this: there I've got some avocado. In goes a couple of cherry tomatoes, a little bit of selantro and a little bit of jalapeño in there. We are also gonna pop in a little bit of garlic. Watch this: pop on the cross blade. In one, two, three seconds - are you ready? Instant guacamole! It's fresh. It's delicious. Watch this: it tastes great! And look at that! And I didn't even use a knife. Look at that!

MIMI

But the Bullet fast magic that we like best...

MIMI & MICK

Frozen drinks!

The guests cheer and applaud.

MICK

Now, watch this: now what we're gonna do is we're gonna put some strawberries in there - are you watching carefully, yeah? Into that I'm gonna pop some ice. Finish it off with some Margarita mix. How cool is this? Have you noticed that all the ingredients are going directly straight into the mug. How cool is that? Now watch: on goes the blade.

(MORE)

MICK (CONTINUED)

Give it a spin. And watch this: I just lock in onto the On position - and in just seconds the Magic Bullet crushes a whole mug-full of ice into a smooth, frosty, frozen beverage! So now you've got a fresh, delicious, virgin strawberry Margarita - look at that! - ready to drink right in its own frosty mug!

MIMI

So everybody gets exactly the drink they want, made just the way they like it! And now you can just twist on one of these colored comfort lips to cover up the threads here.

MICK

And they all come in a different color - so everybody knows exactly which drink is theirs!

MIMI

All right you guys, come on! Let's go! Let's get this party going!

The guests all get up from their chairs.

INT. MICK AND MIMI'S KITCHEN - MORNING

The guest are in back their chairs.

WILMA

I've gotta tell you Mimi, I can see myself using the Magic Bullet every day!

MIMI

It really is a time saver. But we're just getting started! See this?

MICK

This turns the Magic Bullet into the family-sized Bullet Blender.

MIMI

So let's say you want to make a milkshake. Try this: start with a handful of hard peppermint candy (my secret ingredient!), add in a chocolate bar and a squeeze of chocolate syrup...

MICK

Ah! Ah! Ah! Don't forget the ice cream! Look at that - plenty of ice cream!

MIMI

Add a splash of milk - or more! Slip on the top. And now you've got a full-sized Bullet Blender that does everything you'd expect a big expensive appliance to do. And look: you've got an entire blender-full of chocolate, chocolate chip peppermint milkshake! My favorite! Would you guys taste this!

MICK

Look at that! Enough for the entire family! But you've gotta see this, because this is what makes the Magic Bullet truly the most versatile kitchen appliance on the market today.

MIMI

With the addition of this ingenious extractor insert the Magic Bullet - that just became the Bullet Blender - is now the Bullet Juicer! You know how we're all supposed to get five to seven servings of fruits and vegetables a day, right?

BERMAN

(cynically)

But nobody eats like that. Nobody.

WILMA

Especially the kids - they won't go near a vegetable!

MICK

Ah well we may have a solution to that problem Wilma. Watch this: just pop a few pieces of watermelon in there. To that I am going to add a couple of pieces of pineapple - rind and all, that just goes right in there.

MIMI

Now I'm gonna add a handful of spinach!

MICK

To that we're gonna pop in a couple of pieces of beetroot. And to that we're gonna add a couple of florets of broccoli.

BERMAN

Yuck - I hate broccoli!

Tina looks on sympathetically.

MIMI

In just seconds you have a delicious juice drink filled with the vitamins and minerals of all the vegetables and fruits that just went into it!

MICK

And you tell me, Berman, can you taste any broccoli in that?

BERMAN

Hey that tastes great! Not like vegetables at all!

MICK

That's because the taste of the fruit overpowers the taste of the vegetables. You get all the vegetable goodness - but you don't get that yucky vegetable taste!

MIMI

And the kids'll never know.

TINA

You know, I can really see myself using this thing every day of the week!

WILMA

Absolutely.
